Texas' energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

182,506 people work in Texas' energy efficiency sector.

Energy efficiency jobs are in nearly every Texas county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Texans money and boost local economies.

Please support policies and programs that will enable Texas' energy efficiency sector to create jobs and provide benefits for communities.
