Session V: Collaborating for Success: Innovative Partnerships Advancing Lead Hazard Control and Healthy Homes Grant Program Efforts

Session Description: This session features a panel of experts who will share their experiences in developing innovative partnerships to advance lead hazard control, healthy homes, and technical studies grant program efforts. The panelists will discuss successful collaborations with community organizations, health agencies, housing authorities, and other stakeholders that have led to increased awareness, funding, and resources.

Following the panel presentation, participants will engage in round table workshop discussions with the panelists and other attendees. During these discussions, attendees will have the opportunity to share their own experiences and ideas for building effective partnerships, as well as receive feedback and guidance from the experts.

By the end of this session, participants will have gained valuable insights and practical strategies for developing and strengthening partnerships to advance lead hazard control and healthy homes grant program efforts. Attendees can network with other professionals in the field and build relationships that can support ongoing success in their programs.

This session is designed for program managers, community leaders, and anyone involved in the planning and implementation of lead hazard control and healthy homes grant programs. Attendees will leave this session feeling inspired and equipped to create innovative partnerships that can help improve the health and well-being of their communities.

Session Presenter/Panelist(s): Katrina Korfmacher, Director, Community Engagement Core, Environmental Health Sciences Center, Professor of Environmental Medicine, University of Rochester Medical Center

Michelle Naccarati-Chapkis, Executive Director, Women for a Healthy Environment

Jo Miller, OLHCHH

Kate Hastings, Facilitator

11:15 AM – 12:30 PM
