Energy Efficiency: America’s Job-creation Powerhouse

Hawaii’s energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

5,759 people work in Hawaii’s energy efficiency sector.

Energy efficiency jobs are in nearly every Hawaii county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Hawaii residents money and boost local economies.

Energy efficiency is key to equitable growth.

Please support policies and programs that will enable Hawaii’s energy efficiency sector to create jobs and provide benefits for communities.

“[I manage] delivery of residential programs [across several] counties.”
